

Morning Speech on 9th May 2015.

By Rainie Hui (5B) and Jenny CHEUNG (5B)

Rainie: Good morning Principal, teachers and fellow schoolmates. I am Rainie from 5B.

Jenny: I am Jenny from 5B.

Rainie: Hey, Jenny. Do you have a shopping bag?

Jenny: No, I don't. why do you want a shopping bag?

Rainie: I am going to go shopping. You know, the full implementation of plastic shopping bag charging has been carried out since 1st April this year. If you ask for a bag which contains plastic, you have to pay 50 cents.

Jenny: I know of course. The government adopts this policy to raise citizens' awareness of protecting the environment but I don't think the environment is bad.

Rainie: Oh no. I think you should pay close attention to the surrounding environment. See! The weather is hot due to the greenhouse effect and the landfill sites are almost full.

Jenny: Oh you are right. I think only we can save the earth. However, I think it is troublesome to bring a shopping bag. It is old-fashioned too. Also, just a few plastic bags will not harm the earth.

Rainie: Come on! If everyone has the same idea, the amount of waste will be enormous. Besides, a shopping bag can carry lots of things. You won't have to take many bags. Is it more convenient than carrying many plastic bags?

Jenny: Yes, it is quite convenient. Moreover, it can help with the environment. Rainie, you have changed my mind. Do you have time to buy a shopping bag with me?

Rainie: Sure! Let's save the earth and save 50 cents.

Jenny & Rainie: This is the end of our sharing. Thank you.
