Gigi So (2A)

What are you doing after school? Playing, doing homework or going home? In our school, a group of students practise hard to learn dancing after school in our dancing room on the 7/F until 7:30 p.m. Who are they?

鳳

溪

They are our senior form schoolmates and some students from TWGHS Li Ka Shing College and Elegantia College. In total 31 students in black T-shirts learnt dancing together from three dance teachers who came from Paris. The teachers combined electronic music, Hip-Pop music and Bolero folk music into a piece of 45-minute music as the background for the dance. The teachers said, 'They will boldly try to let students create their dance by themselves!'

堂

The English Festival was a huge success again this year. Firstly, let me talk about my favourite activity - the assembly. The most fantastic part of the assembly was the drama show called Man Shek Rhapsody. I played the role of an ordinary girl who does not have nice teeth and has to wear dental braces. This storyline is about how much pain I had to suffer from not only the braces but also low self-esteem. Blended well together were other different story lines about motherhood, heroes and promises. When the drama finished, my teachers and classmates praised me. Thanks to all of them! I hope the English Festival will be even more interesting next year!
